

Technical Appendix 6.2: Cultural Heritage Assets within the Outer Study Area (EIA Report Volume 2a, Figures 6.2 and 6.3)

1.1 Introduction

- 1.1.1 This Technical Appendix (TA) provides details on the heritage assets recorded within the Outer Study Area (defined as nominally a 10 km study area from the outermost Proposed Development turbines but including those additional heritage assets beyond 10 km that have been specifically requested by Historic Environment Scotland (HES) (see **EIA Report Volume 1, Chapter 6, Section 6.2, Table 6.1** for summary of consultation responses) to be included within the assessment), together with an assessment of their heritage sensitivity (**EIA Report Volume 1, Chapter 6, Table 6.2**) and the potential effects of the Proposed Development on their setting (**EIA Report Volume 1, Chapter 6, Table 6.3-6.4**).
- 1.1.2 The locations and extents of these heritage assets are shown on **EIA Report Volume 2a, Figure 6.2**.
- 1.1.3 This TA should be read in conjunction with **EIA Report Volume 1, Chapter 6: Cultural Heritage Assessment**.
- 1.1.4 Those heritage assets agreed with HES as requiring detailed consideration, even when the significance of the predicted effect is assessed as being 'not significant' in EIA terms, are discussed in detail in **Section 6.8** of **EIA Report Volume 1, Chapter 6**.

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
SM182	Beacharr, standing stone & long cairn	Scheduled Monument	Impressive standing stone 5.03 m high (tallest in Kintyre): one of several in this area - e.g. SM188. Current setting is rural, coastal location overlooking sea and standing ca. 100 m northwest of Beacharr Farm and ca. 30 m south of a Neolithic long cairn, set back ca. 150 m from cliff edge and contributes to local (coastal) scenic character.	High (but localised to coastal setting)	High (localised)	7-9	2.7	Low (minimal visibility due to topography. Key coastal views unaffected)	Minor (EIA Not significant)
SM188	Carragh Muasdale, standing stone 225m N of South Muasdale	Scheduled Monument	Prominent standing stone 2.4 m high incorporated in a stone wall: one of several in this area - e.g. SM178. Current setting is rural, coastal location overlooking sea and set back ca. 100 m from the cliff edge, ca. 250 m north of South Muasdale Farm and contributes to local (coastal) scenic character.	High (but localised to coastal setting)	High (localised)	7-9	6.2	Low (mid-distant, part screened visibility. Coastal views unaffected)	Minor
SM190	Carragh an Tarbert, standing stone 550m NNE of Tarbert, Gigha	Scheduled Monument	Coastal setting on narrow neck of land between two bays; stands immediately adjacent to east side of single track road at north end of Gigha	High (but localised to island and coastal setting)	High (localised)	7-9	9.7	Imperceptible (far distant visibility. Localised island setting)	Negligible
SM259	Cnoc na Carraigh, inscribed stone NE of	Scheduled Monument	Four-sided granite pillar 1.7 m high bearing an Ogam inscription on its northwest edge. Current setting is rough pasture east of Kiel Cottage approx 100 m northwest of St Cathan's Church (SM3307) on Gigha.	High (but localised to proximity to Church)	High (localised)	7-9	8.4	Imperceptible (far distant visibility. Localised island setting)	Negligible
SM2491	Dun Skeig, duns & fort	Scheduled Monument	Dun Skeig is comprised by three structures: two duns (one vitrified) enclosed by the remains of an earlier fort wall. Current setting is elevated ground, forested at the north, sloping to rough pasture to the south. The monument lies outside of the Outer Study Area, over 12 km from the nearest turbine.	High (prominent local topographic and setting and views)	High (localised)	7-9	12.3	Imperceptible (far distant visibility. Localised coastal setting)	Negligible (EIA not significant)
SM3030	St John's Church, church, burial ground and carved stones, Killean	Scheduled Monument / Category A Listed Building (LB12004)	Remains of the old parish church of Killean and its burial ground, which contains a variety of carved gravestones. Origins in	High (but localised to coastal setting and	High (localised)	7-9	2.7	Low (blades only visible, screened by	Minor (EIA not significant)

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			12 th century, abandoned in 17 th century. Current setting beside A83 main road in coastal location in close association with Killean Estate buildings; including the 'Doll's Houses'. The photomontage from the track to the west of St. John's Church (Figure 6.4), shows that the Proposed Development would not be visible from this western approach due to the woodland backdrop to the buildings.	proximity to Killean Estate)				woodland on hillside above A83) Only minimal upgrade works are proposed for the access road, comprising removal of vegetation and road resurfacing.	
SM3111	An Dunan Dun, WSE of Auchadaduie	Scheduled Monument	Remains of a prehistoric domestic and defensive fort, east of Glenbarr. Current setting is elevated rough pasture overlooking the Barr Glenn and Water, with the location likely chosen to capitalise on this vantage.	High (slightly elevated, overlooking Barr Glen)	High (localised)	1-3	8.0	Imperceptible (distant visibility)	Negligible
SM3143	Dun Bechaire, dun	Scheduled Monument	Roughly rectangular dun (17.5 m by 13.5 m). One of a number of similar Iron Age domestic structures along the coast or set within sheltered valleys. Current setting is a low ridge on a raised terrace west of Beacharr Farm, with wide open views over the coastal raised beach and out to sea.	High (prominent local topographic setting and views to west)	High (prominent local topographic setting and views to west)	7-9	2.8	Low (minimal visibility due to topography. Key coastal views unaffected)	Minor (EIA not significant)
SM3179	Killean, fort NE of	Scheduled Monument	Slight remains of a fort, measuring 30.5 m by 20 m, lie at the edge of the Killean Burn gorge. Current setting is scrub woodland on west facing hillside with open aspect views over the coastal strip and Sound of Gigha.	High (prominent local topographic setting and views to west to coastal plain and seascape)	High (localised to coastal location)	7-9	2.0	Low (localised setting. Main views are out to coastal plain and sea)	Minor (EIA not significant)
SM3182	Carn Ban, Cairn Gigha	Scheduled Monument	A prehistoric ritual and funerary cairn located near the northern tip of the Isle of Gigha. Current setting is coastal location above and overlooking Port Mor and Sound of Gigha.	High (but localised to island and coastal setting)	High (localised)	7-9	9.9	Imperceptible (far distant visibility. Localised island setting)	Negligible

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
SM3223	Dunan Muasdale, dun	Scheduled Monument	Almost circular dun (ca. 13.5 m by 12 m). One of a number of similar Iron Age domestic structures along the coast or set within sheltered valleys. Current setting is in an elevated position on a rocky knoll close to the Clachaig Water with open views across and along the river valley. Views to southeast constrained by rising ground.	High (slightly elevated position close to Clachaig Water)	High (localised, to Clachaig Glen focus)	4-6	4.5	Low (localised Clachaig Glen setting. Mid-distant, part screened visibility)	Minor
SM3226	Dun Ach'na h-Atha, dun	Scheduled Monument	Remains of an oval dun (15 m by 13.5 m). One of a number of similar Iron Age domestic structures along the coast or set within sheltered valleys. Current setting is in elevated position in coastal location on the edge of the cliff that overlooks the raised beach below and with open views west out to sea. Views east considerably constrained by steeply rising hillside.	High (localised to coastal location and views west to sea)	High (localised)	7-9	6.8	Low (distant visibility only. Coastal setting unaffected)	Minor
SM3227	Dunan an t-Seasgain, dun 465m WNW of Drumyeonmore Farm, Gigha	Scheduled Monument	Dun, measuring 29 m by 18 m internally, occupies the summit of an isolated rocky knoll, at 45 m AOD. Protected by steep rocky slopes on all sides except the southwest where there is easy access. Lies 730 m northeast of Dun Chibhich (SM3230). Current setting is in rough pasture in the approximate centre of Gigha and north of Mill Loch. Wide ranging views in all directions, especially to coast on either side of island. Intervisible with Dun Chibhich.	High (prominent local topographic setting and views over island and seascape)	High (localised island setting)	7-9	9.1	Low (distant visibility only. Localised island setting)	Minor
SM3228	Dunan Buidhe, dun, Gigha	Scheduled Monument	Heavily robbed remains of a dun, measuring 13.5 m by 6 m, set on a rocky knoll on Gigha which rises to a height of 9 m AOD. Current setting is coastal location above and overlooking Druimyeon Bay and Sound of Gigha.	High (prominent local topographic and coastal setting and views east over seascape)	High (localised island setting)	7-9	7.8	Low (distant visibility only. Localised island setting)	Minor

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
SM3230	Dun Chibhich, fort 400m NW of Druimyeonbeg, Gigha	Scheduled Monument	Earthwork remains of a fort, 36.5 m by 24.5 m, on a rocky knoll which crowns the northeast end of a prominent ridge on Gigha at a height of 45 m AOD. Current setting is in rough pasture in the approximate centre of the island and near to south shore of Mill Loch. The approach from the southwest is easy, but on all other sides the steep fall of the ground provides a strong natural protection. Wide ranging views in all directions, especially to coast on either side of island. Intervisible with Dunan an t-Seasgain.	High (prominent local topographic setting and views over island and seascape)	High (localised island setting)	7-9	8.8	Low (distant visibility only. Localised island setting)	Minor (EIA not significant)
SM3307	Achamore House, old parish church 230m N of	Scheduled Monument	Remains of former parish church of Gigha and Cara; dedicated to St Cathan and probably dates from the 13 th century. Current setting is in rural location along track to Kiel Cottage and adjacent to conifer woodland along north edge of Achamore House IGDL.	High (but localised island setting with relationship to Achamore House)	High (localised island setting)	7-9	8.4	Low (distant visibility only. Localised island setting)	Minor
SM3397	Ardlamey, cairn 800m SW of	Scheduled Monument	Bronze Age burial cairn, 14 m diameter and max 1.1 m high. Current setting is coastal location on heather-covered rock-ridge 800 m southwest of Ardlamey farmhouse and above Port an Samhlaidh bay on Gigha.	High (but localised island setting and views southwest over seascape)	High (localised island setting)	7-9	9.6	Low (distant visibility only. Localised island setting)	Minor
SM3659	Beachmeanach, enclosure 700m ESE of Beachmeanach Farm	Scheduled Monument	Remains of a prehistoric enclosure situated on a level terrace in the hillside 700 m. The monument is circular in shape, consisting of a stony bank 0.5 m high and 2.5 m wide, enclosing an area approximately 25 m in diameter. Current setting is rough pastureland, with a possible entrance to the monument's SW and good coastal views to the west.	High (but localised to uplands inland of coast)	High (localised)	1-3	2.5	Imperceptible (minimal tip only visibility)	Negligible
SM3817	Talatoll, shielings 1400m SE of, Kintyre	Scheduled Monument	Remains of extensive group of shieling huts in two clusters approximately 250 m apart lying	Moderate	High (localised)	7-9	8.7	Low (distant visibility only.	Minor

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			a short distance (ca 800 m) from the south shore of Loch Ciaran. The westernmost cluster, at least 42 shielings, lies in a clearing at the edge of forestry with open aspect to the west. Easternmost cluster, at least 25 shielings, lies in a clearing in the forestry and closely surrounded on all sides.	(localised to upland moors and proximity to Loch Ciaran)				Localised upland moorland setting. Setting dominated by forestry)	
SM4352	Low Clachaig, cup-marked boulders 915m E of	Scheduled Monument	Best examples of cup-and-ring markings in Kintyre. The larger stone bears at least 54 circular or oval cups; three of the larger cups each have two complete or partial rings. The smaller stone has 39 cups, six of which are accompanied by an incomplete ring. Current setting is adjacent to forestry track within commercial forestry plantation which restricts long distance views west to the sea.	Low (localised to Clachaig Glen within commercial forestry and closely surrounded by commercial woodland)	Medium (entirely within commercial forestry and surrounded by trees)	7-9	3.9	Low (closely surrounded by commercial woodland)	Minor (EIA not significant)
SM13295	North Beachmore, rock art panels 220m E, 350m E and 385m ESE of Beacharr Farm	Scheduled Monument	The monument comprises three rock outcroppings decorated with prehistoric motifs. One of the outcroppings now serves as the N side of a gateway between two pasture fields. Current setting is pastureland beside the Achapharick burn at approximately 120m above sea level. The monument has an E-facing outlook to the Kintyre ridge, while to the west it overlooks the Sound of Gigha, Jura and Islay beyond.	High (but localised to upland pastureland)	High (localised)	1-3	3.3	Imperceptible (minimal tip only visibility)	Negligible
LB12005	Killean House	Category A Listed Building	Asymmetrical mansion, mixed French, English and Scottish late Gothic and Early Renaissance motifs, built 1880s. Secluded setting within woodland with open aspect views from rear (west) elevation towards Sound of Gigha. Steeply rising wooded ground to east.	Moderate (localised to west facing secluded woodland setting. Visible from coastal locations and from Sound of Gigha)	High (localised)	4-6	2.4	Low (visibility screened by closely surrounding woodland)	Minor (EIA not significant)

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
LB12035	Killean And Kilchenzie Parish Church, A' Chleit	Category A Listed Building	18th-century Neoclassical church, located on promontory in Sound of Gigha, amidst pastureland and sparse woodland.	High (localised on promontory in Sound of Gigha)	High (localised)	1-3	4.3	Low (distant visibility mitigated further by topography)	Minor (EIA not Significant)
LB43266	The Doll's Houses	Category A Listed Building	19-century group of Arts and Crafts buildings housing workers on Killean Estate. Part of a group ('Killean Estate' with Killean Hall (LB43250) and Killean House (LB12005).	Moderate (localised to west facing secluded woodland setting. Visible from coastal locations and from Sound of Gigha)	High (localised)	0	2.5	Low (minor groundworks and vegetation thinning to widen access track)	Minor (EIA not significant)
LB11425	Gate-Lodge (with gate-piers and garden walls), Achamore Estate, Main Road	Category B Listed Building	Single storey gate lodge (1895) in 'Scottish style'. Secluded setting within wooded enclosure at entrance to Achamore House Estate, adjacent to public road. Contributes to local scenic character through association with Achamore Estate and IGDL.	High (localised to island setting and entrance gateway to Estate grounds)	High (localised)	7-9	8.0	Imperceptible (setting localised to immediate environs of Achamore Estate. Localised island setting)	Negligible
LB11426	Achamore Farm, house and steading	Category B Listed Building	Earlier 19 th century, traditional one storey and attic farmhouse and one storey and loft steading. Current setting is rural farmland just outside the Achamore IGDL on southeast side of the island in the lee of Gigha's central hill-range overlooking the Sound of Gigha.	Moderate (localised to island and association with Achmore House)	Medium (localised)	7-9	8.3	Imperceptible (setting localised to immediate environs of Achamore Estate. Localised island setting)	Negligible
LB11427	Gigha and Cara Manse, Ardmenish	Category B Listed Building	Georgian, two storey and attic manse built 1816. Manse for the minister of the Parish Church. Current setting is coastal village location on east coast of Gigha.	Moderate (localised to island and association with Parish Church)	Medium (localised)	7-9	7.9	Low (distant visibility only. Localised island setting)	Minor
LB11430	Cara Chapel (St. Finla's)	Category B Listed Building / NSR C (3184)	Ruined chapel, probable 15 th century date; oblong on plan and measuring 8.8 m east to west by 5.3 m transversely. Current setting is on small, low lying island in Sound of Gigha. Lies adjacent to Category C Listed Cara House (LB11429) at the north end of Cara Island and overlooking the Sound of Gigha. Contributes to local coastal scenic character, through	High (localised to island setting)	High (localised to island setting)	7-9	7.9	Low (distant visibility only. Localised island setting)	Minor

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			association with adjacent Cara House.						
LB11446	Gigha Hotel Ardmenish	Category B Listed Building	Traditional two storeys and attic hotel and farmhouse. Current setting is coastal village location on east coast of Gigha.	Moderate (localised to village and island)	Medium (localised)	7-9	7.8	Low (distant visibility only. Localised island setting)	Minor
LB11449	Achamore House	Category B Listed Building	Two storey Scottish style country house dated 1884. Current setting is within late 19 th century designed landscape on the southeast side of the island in the lee of Gigha's central hill-range overlooking the Sound of Gigha. Secluded location, closely surrounded by woodland on all sides with lawn and driveway to front (southeast) elevation.	High (localised to island and designed landscape)	High (localised to island & designed landscape setting)	7-9	8.0	Low (distant visibility only. Localised island setting)	Minor (EIA not significant)
LB11450	Gate-Way, Achamore Estate, Main Road	Category B Listed Building	19 th century gateway piers and cast iron gates at principal entrance to Achamore House. Gateway contributes to local scenic character through association with Achamore Estate and IGDL.	High (localised to Achamore House main entrance)	Medium (localised to immediate surroundings of entrance driveway)	7-9	7.8	Imperceptible (setting localised to immediate environs of Achamore Estate. Localised island setting)	Negligible
LB13759	Gigha and Cara Parish Church, Cnocan A Chiuil, Ardmenish	Category B Listed Building	Plain Romanesque Revival chapel date 1923 built to replace Church (1780) which stood opposite the former Inn (now hotel - LB11446). Current setting is coastal village location on east coast of Gigha.	High (localised to village and island)	High (localised)	7-9	7.8	Low (distant visibility only. Localised island setting)	Minor
LB11429	Cara House	Category C Listed Building	Cara House (1733) former residence of the tacksman of Cara. Current setting is on small, low lying island in Sound of Gigha. House contributes to local (coastal) scenic character through association with the adjacent St Fionnlugh's Chapel (LB11430).	High (localised to island setting)	Medium (localised to island setting)	7-9	7.9	Low (distant visibility only. Localised island setting)	Minor
LB11448	Boundary Wall (with 2 gate-ways), Kilchattan Burial Ground	Category C Listed Building	Probable 18 th century boundary wall around Kilchattan burial ground and old parish church on	Low (localised association with	Low (localised to immediate	7-9	8.0	Imperceptible (setting localised to immediate	Negligible

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			Island of Gigha. See SM3307 above. Burial ground lies adjacent to Achamore IGDL in secluded localised setting.	church that it surrounds)	environs of church)			environs of church. Localised island setting)	
LB12006	Killean Home Farm	Category B Listed Building	Later 19th-century steading situated between road and woodland. Secluded setting within woodland with open aspect views from rear (west) elevation towards Sound of Gigha. Steeply rising wooded ground to east.	Moderate (localised to west facing secluded woodland setting. Visible from coastal locations and from Sound of Gigha)	High (localised)	4-6	2.6	Low (visibility screened by closely surrounding woodland)	Minor
LB12007	Tigh-Na-Cladaich, Muasdale	Category B Listed Building	Two-storey 18th-century house of traditional design. Secluded setting within wooded copse on low headland.	Moderate (localised to west facing secluded woodland setting. Visible from some coastal locations and from southern Sound of Gigha)	High (localised)	1-3	5.9	Low (visibility screened by closely surrounding woodland)	Minor
LB13073	Killean Home Farmhouse	Category B Listed Building	19th-century, two-storey farmhouse. Secluded setting within woodland with open aspect views from rear (west) elevation towards Sound of Gigha. Steeply rising wooded ground to east.	Moderate (localised to west facing secluded woodland setting. Visible from coastal locations and from Sound of Gigha)	High (localised)	1-3	2.5	Low (visibility screened by closely surrounding woodland)	Minor
LB13074	Lodge, Killean House	Category B Listed Building	The Killean House Lodge, incorporating French, English and Scottish late Gothic and Early Renaissance motifs, built 1880s. Secluded setting within woodland with open aspect views from rear (west) elevation towards Sound of Gigha. Steeply rising wooded ground to east.	Moderate (localised to west facing secluded woodland setting. Visible from coastal locations and from Sound of Gigha)	High (localised)	4-6	2.6	Low (visibility screened by closely surrounding woodland)	Minor
LB12014	Gortinanane House	Category C Listed Building	Early 19th-century, two-storey house. Secluded setting within woodland without open aspect views due to enclosing woodland.	Moderate (localised in secluded woodland setting)	High (localised)	1-3	2.4	Low (visibility screened by closely surrounding woodland)	Minor
	Achamore House	Inventory Garden and Designed Landscape	A late 19 th century designed landscape, largely developed after 1944 and having little historical value. Has high architectural value as the setting	High (localised to Gigha island landscape)	High (localised)	7-9	8.0	Low (distant visibility only.	Minor (EIA not significant)

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			for category B listed Achamore House (LB11449). Contributes some scenic value to the landscape, seen mainly in views from the Sound of Gigha to the east. Lies on slightly sloping, relatively flat land overlooking Sound of Gigha to the east.					Localised island setting)	
3045	Killmaluag; 'Cup-markings'	NSR code V	A cup-marked stone bearing five clear cup-marks. Current setting is rough pasture in elevated location close to commercial forestry plantation in Barr Glen. Views constrained by valley, open view to southwest towards sea.	Moderate (one of a small group within Barr Glen along with 3037, 3454, 3044, 3054, 3052, 3453, 3040)	Medium (localised to immediate environs and group association)	7-9	5.1	Imperceptible (distant visibility. Localised setting in Barr Glen)	Negligible
3048	South Mausdale Cairn (Possible)	NSR code V	The remains of a possible cairn occupy the tip of a short rocky spur situated 36.5m SW of South Muasdale. Severely robbed, it consists of a mainly grass-covered mound of stones standing 1.1m in height and covering an area measuring 12.2m by 6.1m. Three large slabs, two of which are upright while the third now lies flat beside them, may have belonged to a cist. Current setting is the rock spur overlooking the main road from a height of about 40 m OD, with views of the coast, including the raised beach below, open views west out to sea. Views east considerably constrained by steeply rising hillside.	High (localised to coastal location and views west to sea)	High (localised)	7-9	6.8	Low (distant visibility only. Coastal setting unaffected)	Minor
3056	Blary; Cup-markings	NSR code C	A large cup-marked boulder. It measures 3.2 m by 2.6 m by 1.1m high and has four plain cups on its upper surface. Current setting is perched on the brink of the gorge of the Allt a' Mhuilinn, overlooking the right bank of the stream, close to a waterfall, in a forested setting.	Negligible (localised in forestry)	Low (localised to immediate environs)	4-6	7.1	Imperceptible (distant visibility. Lies within forestry setting)	Negligible

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
3104	Carn Ruairidh; Kerb-cairn	NSR code V	Possible Bronze Age burial cairn, 7.5 m in diameter and about 1.0 m high, covered by heather and bracken. Current setting is a slightly elevated spot on the Ardmish Point peninsular on Gigha overlooking the Sound of Gigha.	High (elevated position in coastal position. Localised to island)	High (localised to island and immediate environs)	7-9	7.1	Imperceptible (distant visibility only. Localised island setting)	Negligible
3113	North Druimachro; Dun	NSR code V	Slight remains of a dun, 13.5 m by 9 m internally, occupy the top of an isolated knoll about 100 m west of North Druimachro Farm on Gigha. Current setting is in rural farmland location overlooking Ardmish Bay to the northeast.	High (elevated position in coastal position. Localised to island)	High (localised to island and immediate environs)	7-9	7.5	Imperceptible (distant visibility only. Localised island setting)	Negligible
3153	Drumnamucklach; Cup-markings	NSR code C	A cup-marked stone 320 m east of Drumnamucklach has at least six cup-marks on its surface. Highest of a line of five boulders lying close together. One of a local group (with 3114-16, 3178 and 34991) that lies on the west facing hillside above Killean House with open aspect views over Sound of Gigha.	Moderate (one of a localised group)	Medium (localised to immediate environs)	4-6	2.1	Low (setting localised to immediate environs and group association. Open views to coast unaffected)	Minor (EIA not significant)
3154	Low Clachaig; Cup-markings	NSR code V	A small stone bearing four plain cup-marks incorporated in the foundation-course of the south corner of the barn at Low Clachaig. Current setting is farmyard within Clachaig Glen.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	7-9	4.2	Imperceptible (entirely screened within forestry setting)	Negligible
3155	Low Clachaig; Cup-markings	NSR code C	Large cup-marked stone bearing four plain cups. Current setting is within a small forestry plantation to southeast of Low Clachaig Farm.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	7-9	4.2	Imperceptible (entirely screened within forestry setting)	Negligible
3162	South Crubasdale; Cup-markings	NSR code C	Cup-marked boulder bearing 15 cups. Current setting is in the stackyard immediately behind South Crubasdale farm-house.	Low (localised to farmsteading)	Medium (localised to immediate environs)	1-3	4.7	Imperceptible (screened by topography. Setting localised to immediate environs. Open views to coast unaffected)	Negligible

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
3163	High Crubasdale; Cup-markings	NSR code C	Cup-marked boulder bearing eight plain cups. Current setting is within and covered by commercial forestry.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	1-3	3.3	Imperceptible (screened by topography and within forestry setting)	Negligible
3172	Beachmeanach Burnt Mound	NSR code C	A turf and heather-covered burnt mound. It is roughly kidney shaped and measures 10.0 m N-S by 9.0 m by 1.0 m high. A water course runs past the S side. Current setting is coastal upland current in use as rough pasture.	High (but localised to uplands inland of coast)	High (localised)	1-3	2.8	Imperceptible (minimal tip only visibility)	Negligible
3178	Drumnanucklach; Cup-and-ring-markings	NSR code C	A cup and ring marked stone lies 275 m ENE of Drumnamucklach. One of a local group (with 3414-16 and 3153). Current setting is on the west facing hillside above Killean House with open aspect views over Sound of Gigha.	Moderate (one of a localised group)	Medium (localised to immediate environs)	1-3	2.1	Low (setting localised to immediate environs and group association. Open views to coast unaffected)	Minor (EIA not significant)
3182	Low Clachaig; Cup-markings	NSR code C	Large cup-marked stone close to farm track bears 12 plain cups. Current setting is in rough pasture overlooking Clachaig Water to northwest.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	7-9	3.9	Imperceptible (entirely screened within forestry setting)	Negligible
3187	East Tarbert Bay / Tarbet; Cairns	NSR code C	Two cairns lying close together at a height of 10 m AOD on level ground immediately west of the public road above and overlooking East Tarbet Bay and 150 m north of Carragh an Tarbert, standing stone (SM190) at north end of Gigha.	High (but localised coastal setting and close association with each other)	High (localised to island and immediate environs)	7-9	9.5	Imperceptible (distant visibility only. Localised island setting)	Negligible
3206	Kinerarach Standing Stone, 'The Chair'	NSR code C	An earth-fast stone standing 1.4 m high. It is 0.8 m square at base but shelves abruptly half-way up the NE face, hence the name 'The Chair'. Current setting is coastal, between two bays, at north end of the Isle of Gigha.	High (but localised to island and coastal setting)	High (localised)	7-9	9.9	Imperceptible (far distant visibility. Localised island setting)	Negligible
3212	Cnoc Largie; Cairn	NSR code V	Possible cairn or enclosure (dun?), measuring 16.5 m northeast-southwest by 15.5 m	High	High (localised to island and	17	9.0	Imperceptible (distant visibility only.	Negligible

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			transversely and 0.5 m high, with a fairly level top. Current setting is on gently southwest sloping of Cnoc Largie on Gigha at a height of 45 m AOD. Open aspect to southwest and good views to sea to east and west.	(elevated position in coastal position. Localised to island)	immediate environs)			Localised island setting)	
3222	Aird Thorr Innse Cairn	NSR code C	A cairn comprising a circular grass-grown mound measuring 9.1m in diameter and 2.1m in maximum height. A few stones are visible in the turf, including a thin slab set on edge near the foot of the cairn on the E side which probably represents the remains of a cist; it measures 0.9m in length by 0.5m in height and is about 0.13m thick. Current setting is coastal, about 230 m SE of Aird Thor Innse, overlooking the S end of West Tarbert Bay.	High (but localised to island and coastal setting)	High (localised)	7-9	9.7	Imperceptible (far distant visibility. Localised island setting)	Negligible
3447	High Clachaig; Cup-markings	NSR code C	Cup-marked boulder bearing four shallow cups lies close to two hut circles (3449). Current setting is within and covered by commercial forestry.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	7-9	4.2	Imperceptible (entirely screened within forestry setting)	Negligible
3449	High Clachaig; Hut-circles	NSR code C	Two hut circles within commercial forestry that has been recently felled.	Negligible (within and surrounded by commercial forestry)	Low (within managed commercial forestry)	7-9	4.2	Imperceptible (entirely screened within forestry setting)	Negligible
3451	Low Clachaig; Cup-markings	NSR code C	Two cup-marked boulders; the larger bearing four cups, the smaller has three cups. Current setting is within and covered by commercial forestry.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	7-9	4.3	Imperceptible (entirely screened within forestry setting)	Negligible
3452	Blary; Cup-markings	NSR code C	Earth-fast boulder bearing 25 poorly defined cup-marks. Current setting is in elevated, rough pasture/heathland location, surrounded by forestry plantation but retaining open views westwards to sea.	Moderate (one of a tight group in forestry clearing with 3443, 3445, 3442, and 3446).	Medium (localised to group and west facing hillside)	7-9	6.6	Imperceptible (distant visibility. Lies within forestry setting)	Negligible
3454	Killmaluag; Cup-markings	NSR code C	Cup-marked stone bearing five cup-marks.	Moderate	Medium	7-9	4.9	Imperceptible	Negligible

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			Current setting is rough pasture in elevated location close to commercial forestry plantation in Barr Glen. Views constrained by valley, open view to southwest to sea.	(one of a small group within Barr Glen along with 3045, 3037, 3044, 3054, 3052, 3453, 3040)	(localised to immediate environs and group association)			(distant visibility. Localised setting in Barr Glen)	
3470	Loch Dirigadale; Cup-markings	NSR code C	Cup-marked boulder bearing at least nine cup-marks. Current setting is within a cluster of shielings (asset 6) close to Loch Dirigadale and surrounded by commercial forestry.	Moderate (localised to Loch Dirigadale and association with group of shielings)	Medium (localised to immediate environs)	7-9	0.4	Medium (open views to turbines in close proximity)	Moderate (as a group with asset 6)
3473	Lagloskine; Cup-markings	NSR code C	Cup-marked boulder with at least five cups. Current setting is rough pasture northeast of Lagloskine sheepfold.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	1.8	Medium (open views to turbines in fairly close proximity)	Moderate (as a group with 3474, 3480, 3484 & 3485; EIA significant)
3474	Lagloskine; Cup-markings	NSR code C	Rock outcrop with four deep cup-marks. Current setting is rough pasture northeast of Lagloskine sheepfold.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	1.7	Medium (open views to turbines in fairly close proximity)	Moderate (as a group with 3473, 3480, 3484 & 3485; EIA significant)
3475	Lagloskine; Cup-markings	NSR code C	A prominent boulder, 2.2m by 1.5m by 0.7m high; it has at least nine cup marks on its weathered upper surface. Current setting is partially wooded, rough pasture north of the Allt an Sgòrnain.	Moderate (localised)	Medium (localised to immediate environs)	1-3	2.2	Low (localised setting and screening of majority of turbines)	Minor
3478	Ballure; Cup-markings	NSR code C	A cup-marked boulder 0.86 m by 0.31 m by 0.71 m high. It bears at least twenty-five cups on its north face. Current setting is rough pasture, incorporated in the south side of the doorway of the ruined Drumnavow.	Moderate (localised in a group with 3479)	Medium (localised to immediate environs)	1-3	3.5	Low (localised setting and screening of majority of turbines)	Minor
3480	Lagloskine; Cup-markings	NSR code C	Cup-marked boulder with seven cups. Current setting is rough pasture northeast of Lagloskine sheepfold.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	1.8	Medium (open views to turbines in fairly close proximity)	Moderate (as a group with 3473, 3474, 3484 & 3485; EIA significant)
3481	Gortinane; Cup-markings	NSR Code V	A cup-marked boulder measuring 1.2 m by 1.1 m, and 0.4 m high. It bears thirteen cups.	Moderate (localised)	Medium	7-9	2.2	Medium (open views to turbines in	Moderate

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			Current setting is rough pasture east of Gortinanane in Heathery Park.		(localised to immediate environs)			fairly close proximity)	
3482	Old Largie Castle	NSR code c	Site of medieval castle ruins, much of which is given over to the area of a later steading, itself now also ruins. Current setting is pastureland east of the A83 road, with forestry to the west.	Moderate (localised)	Medium (localised to immediate environs)	1-3	3.0	Low (localised setting and screening of majority of turbines)	Minor
3483	Loch Dirigadale; Cup-markings	NSR code C	Cup-marked boulder with at least nine cups. Current setting is at edge of forestry woodland just north of Braids sheepdip.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	0.4	Medium (open views to turbines in close proximity)	Moderate (as a group with 3492, 3501, 3506 & 3508)
3484	Lagloskine; Cup-markings	NSR code C	Cup-marked boulder with five cups. Current setting is rough pasture northeast of Lagloskine sheepfold.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	1.2	Medium (open views to turbines in fairly close proximity)	Moderate (as a group with 3473, 3474, 3480 & 3485; EIA significant)
3485	Lagloskine; Cup-markings	NSR code C	Cup-marked boulder with six very shallow cups. Current setting is rough pasture northeast of Lagloskine sheepfold.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	1.2	Medium (open views to turbines in fairly close proximity)	Moderate (as a group with 3473, 3474, 3480 & 3484; EIA significant)
3491	Drumnamucklach; Cup-markings	NSR code V	A cup-marked boulder, its inclined south face measuring 0.7m by 0.45m, protrudes through the turf. This face bears five cup-marks.	Moderate (localised)	Medium (localised to immediate environs)	1-3	1.8	Low (localised setting and screening of majority of turbines)	Minor (EIA not significant)
3492 (19)	Braids; Hut-circle	NSR code V	Hut circle, 9 m diameter. Current setting is rough pasture on west facing slope southwest of Braids and close to watercourse.	Moderate (part of a localised group with various cup-marked rocks)	Medium (localised to immediate environs)	7-9	0.7	Medium (open views to turbines in close proximity)	Moderate (as a group with 3483, 3501, 3506 & 3508; EIA significant)
3497	Achaglas; Enclosure	NSR code V	Enclosure, 8.9 m north-south by 5.3 m, that may be a prehistoric homestead. Current setting is within and covered by commercial forestry. Part of discrete group of cup-marked rocks (3505, 3511 and 3513) in the Clachaig Water.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	4-6	2.2	Imperceptible (entirely screened within forestry setting)	Negligible
3501 (17)	Braids; Cup-and-ring-markings	NSR code C	Two cup and ring marked boulders.	Moderate	Medium	7-9	0.7	Medium (open views to	Moderate (as a group with

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			Current setting is rough pasture on west facing slope southwest of Braids and close to watercourse and north of hut circle (3492).	(one of a localised group)	(localised to immediate environs)			turbines in close proximity)	3483, 3492, 3506 & 3508: EIA significant)
3505	Achaglas; Cup-markings	NSR code V	Rock outcrop in east side of a stream gully bears a well defined cup-mark and four or five possible cups. Part of a discrete local group along the Clachaig Water valley (with 3497, 3511 and 3513). Current setting is within extensive commercial forestry. Lies along the Clachaig Water from where there are potential open views to the sea.	Negligible (lies within commercial forestry)	Medium (localised to immediate environs)	7-9	2.2	Imperceptible (entirely screened within forestry setting)	Negligible
3506 (15)	Braids; Cup-markings	NSR code C	Rock outcrop with at least 12 cups. Current setting is rough pasture on west facing slope southwest of Braids and close to small watercourse.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	0.8	Medium (open views to turbines in close proximity)	Moderate (as a group with 3483, 3492, 3501 & 3508; EIA significant)
3508 (13)	Braids; Cup-markings	NSR code V	Stone with at least 20 cups. Part of a group (with 3501& 3506) and hut circle (3492). Current setting is rough pasture on west facing slope southwest of Braids and close to watercourse.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	0.7	Medium (open views to turbines in close proximity)	Moderate (as a group with 3483, 3492, 3501 & 3506; EIA significant)
3511	Achaglas; Cup-markings	NSR code C	A cup-marked boulder bearing at least 30 cup-marks. Part of a discrete local group along the Clachaig Water valley (with 3497, 3512 and 3513). Current setting is within and covered by commercial forestry. Lies along the Clachaig Water from where there are potential open views to the sea.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	7-9	2.2	Imperceptible (localised to Clachaig Water valley. Forestry location)	Negligible
3512	Achaglas; Cup-markings	NSR code C	A cup-marked boulder bearing at least 17 cup-marks. Part of a discrete local group along the Clachaig Water valley (with 3497, 3511 and 3513). Current setting is within and covered by commercial forestry. Lies along the Clachaig Water	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	7-9	2.0	Imperceptible (localised to Clachaig Water valley. Forestry location)	Negligible

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
			from where there are potential open views to the sea.						
3513	Achaglas; Cup-markings	NSR code C	Two cup-marked boulders 100 m northwest of the ruins of Glencloichageoidh, immediately east of a small unnamed stream. Part of a discrete local group along the Clachaig Water valley (with 3497, 3505 and 3511). Current setting is within extensive commercial forestry. Lies along the Clachaig Water from where there are potential open views to the sea.	Negligible (lies within commercial forestry)	Low (localised to immediate environs)	4-6	1.5	Imperceptible (localised to Clachaig Water valley. Forestry location)	Negligible
3514	Drumnamucklach; Cup-and-ring-markings	NSR code C	Cup and ring marked stone 1.2 km northeast of Drumnamucklach, and 90m south of the Killean Burn. Forty-two well-marked cups, five of which have a single surrounding ring. Outlier of a local group (with 3115-6, 3153 and 3178) that lies on the west facing hillside above Killean House with open aspect views over Sound of Gigha.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	1.5	Low (setting localised to immediate environs and group association. Open views to coast unaffected)	Minor (EIA not significant)
3515	Drumnamucklach; Cup-and-ring-markings	NSR code C	Cup and ring marked stone beside a small stream 685 m northeast of Drumnamucklach in an area of woodland. One of a local group (with 3114, 3116 and 3178) that lies on the west facing hillside above Killean House with open aspect views over Sound of Gigha.	Moderate (one of a localised group)	Medium (localised to immediate environs)	4-6	1.9	Low (setting localised to immediate environs and group association. Open views to coast unaffected)	Minor (EIA not significant)
3516	Drumnamucklach; Cup-markings	NSR code C	Cup-marked stone 550 m ENE of Drumnamucklach. Appears to have been almost covered with plain cups, but now only about a dozen can be identified. Lies 50 m to the northeast, a second stone bears three cup-marks and two other possible examples. One of a local group (with 3114-15, 3153 and 3178) that lies on the west facing hillside above Killean House with open aspect views over Sound of Gigha.	Moderate (one of a localised group)	Medium (localised to immediate environs)	7-9	1.8	Low (setting localised to immediate environs and group association. Open views to coast unaffected)	Minor (EIA not significant)

Asset No	Name	Status	Setting	Contribution of Setting	Sensitivity of Setting	No of blade tips visible (based on ZTV)	Distance to nearest turbine (km)	Magnitude of Effect	Significance of Effect
3544	Talatoll; Hut Platform	NSR code V	Possible remains of a hut circle, 10 m by 9 m and 0.4 m high. Current setting is on a heather-covered platform in rough pasture on the north side of an unnamed burn that drains into Loch Ciaran. Open aspect to east and overlooks Loch Ciaran to northeast. Rising ground lies to northwest.	Moderate (localised to upland moors and proximity to Loch Ciaran)	Medium (localised to immediate environs)	7-9	9.3	Imperceptible (distant visibility only. Screened by topography)	Negligible
3553	Ballochroy; Cup-markings	NSR code C	A cup-marked boulder situated at a height of 90m OD., measuring 0.97m by 0.91m. It has 12 plain cups on its rough upper surface. Current setting is in a cultivated field on the southwest slopes of Cnoc Donn, forming a discrete pair with 3554.	Moderate (one of a localised group)	Medium (localised to immediate environs)	1-3	7.0	Imperceptible (distant visibility only. Screened by topography)	Negligible
3554	Ballochroy; Cup-markings	NSR code C	Cup-marked flat slab bearing at least 11 plain cups. Current setting is in a cultivated field on the southwest slopes of Cnoc Donn and close to an unnamed watercourse.	Moderate (one of a localised group)	Medium (localised to immediate environs)	4-6	7.1	Imperceptible (distant visibility only. Screened by topography)	Negligible
15404	Port Mor; Dun	NSR code V	Fragmentary remains of a dun, 16 m north-south by 10.5 m east-west. Current setting is a natural knoll 20 m AOD at the southernmost end of Gigha with good view of the coast and the sea surrounding the south end of the island.	High (elevated position in coastal position. Localised to island)	High (localised to island and immediate environs)	7-9	8.5	Imperceptible (distant visibility only. Localised island setting)	Negligible
